Mr. P. Timo complains that a young son of William Wells was practicing with an old horse pistol, and taking as a target the Pioneer Rock clock hanging in the rooming house.

He has filed an information against the boy for firing arms within the city limits. The case will be shown up to-day.

It is understood that Brix has been released from the police force on account of his being too ardent an anti-prohibitionist. Meyer is also said to have been let out because of some peculiarities, among which was the firing off his revolver at night just to see if it was in good condition. The mayor can now choose some more of his pets.

J. J. Kobetich, the Main street boot and shoe maker, is getting a pretty good reputation on his goods. He has been sold one pair of boots for a party in Canada, and he has recently finished two pairs on orders from New Mexico. This shows that good goods are in such demand that there is no limit to the field.

Vote for Dr. F. P. Bellinger for coron.

The case of the Western Cottage Organ company against J. Mueller was given to the jury Saturday, and they have agreed on a verdict which has been rendered, and will be opened in the court this morning. It is understood that the jury found in favor of the plaintiff for the amount of \$18.50.

The funeral of Mrs. W. H. Smith was held Saturday afternoon and was largely attended. She has been a great sufferer and has been gradually failing, with no apparent chance for recovery, and with all the sadness of death there is a feeling of consolation that she has at last entered interest, and that suffering is passed, and the struggle against disease is over.

The boys observed Halloween here within the city limits and vigor. The usual amount of gate shifting and sign changing and other pranks were the chief sport. In front of the Methodist church yesterday morning appeared a sign, "Old Iron Brought Here." It is suggested that with the amount of fire among the Methodists now, the jokers thought that with a supply of iron they might start a new foundry.

The mayor is to appoint three special policemen for each polling place to-morrow, in addition to the regular force, and is to have five express wagons ready to take prisoners to jail. One of the regular policemen is to be in charge of each set of specials. The specials are ordered to close their places, front and back, from 7 o'clock in the morning until 7 o'clock in the evening.

The Republican Rally.

Saturday night there was one of the largest and most enthusiastic rallies of the campaign, the Republicans having secured as the orator of the evening Hon. R. G. Horr, of Michigan. The Masonic hall was crowded with those anxious to hear what this brilliant orator and gifted speaker had to offer. It was expected that Col. Henderson, of Dubuque, would also be present, but he was called elsewhere, and although there was a feeling of disappointment, yet the address of Congressman Horr amply atoned for this. High expectations were felt as to the address, as he had been here before, about two years ago, and then fully sustained the reputation which has become national in its extent. This time he has fully met the expectations of the people. From beginning to finish he held the large audience in the closest attention, and at any time, except when some point would bring forth the storm of enthusiastic applause, one could have almost heard a pin drop, so closely did all listen to every utterance. No synopsis of such a speech can do it justice, or convey an adequate idea of the brilliancy and keenness which characterized his presentation of the faith that was within him. He has sharp wit, and uses it to the discomfort of the opposing party with great effect, and with delight to those of his own political household. Still, he made this brilliancy and wit into a solid foundation of logically arranged facts, so that his address cannot but prove effective as well as entertaining. The audience was not only entertained, and the enthusiasm did not die out with the going from the hall, but was noticeable by over-hearing the street talk yesterday, and the chatting of little groups of citizens, the speech stirred up the city, and proved a fruitful theme for compliment, discussion, quotations and laughter.

Success in Manufacturing.

The Bix always takes pleasure in noticing any improvements in the Bluffs, or the success attending any enterprise, and it takes special pleasure in noting any growth of manufacturing interests, as the city needs to make greater strides in this line. As an evidence that such business can be built up here rapidly and successfully, if only wisely handled and energetically pushed, no better instance is to be found than in the cigar factory of T. D. King & Co., which was started here about a year ago in connection with their retail cigar and tobacco business. In a little over a year this firm has sprung from the youngest enterprise to the rank of leading the entire revenue division, the records showing that for the last six months this factory has manufactured more cigars, sold more goods and paid more revenue than any other factory in this division of the second district of Iowa. Nine cigar makers are given employment, and the weekly earnings amount to from \$13 to \$16 each, making a snug sum paid out each week for labor, and which means a steady income for the workers of this city. With the encouragement already given, and the success already won, it is safe to predict that in the course of another year the business will be doubled, and thus the enterprise grown into one of great value to the city. Such a growth is especially noticeable as it is the first attempt made here for years to push manufacturing in this line. The success won shows that there is a chance for it to become a great establishment, and such beginnings and the efforts of such men should be fostered and encouraged, as manufacturing can be the great need and great benefit of the city.

The firm has found the business increasing so rapidly as to necessitate enlargements of the building. In addition to the original steam and factory, No. 24 Broadway, a large addition has been built onto the rear, for packing department, drying room, and warehouse for storing leaf tobacco. Such success proves that manufacturing can be done successfully here, and that is what the city needs.

A Ponce de Leon Service.

The revival services continue at the Broadway Methodist church, under the charge of Rev. Thos. Harrison, the great evangelist, and there has been such good results that it has been decided to have next Thursday an all day jubilee and ponce de Leon service. The services open at 10 o'clock with a revival praise service; at 10:30 there is to be a jubilee sermon by Rev. Dr. McCabe, of Omaha; at 2 o'clock in the afternoon there is to be a ponce de Leon feast; at 3 o'clock, Rev. Mr. Harrison is to preach on "Baptism of Fire," which is considered his most famous sermon, and which has been delivered with wonderful effect at various places and to immense audiences. In the evening there is to be a song service at 7 o'clock, followed by a revival service. Special excursion rates have been secured for such as wish to come in from the surrounding country, and special rates have been secured at several of the hotels of the city. It is expected that there will be a crowd, and one of the greatest days in the church history of the city.

The New Bridge.

It is a settled fact now, and beyond all rumors and surmises, that the much talked of new bridge, connecting this city with Omaha, is really to be built. About

seventy men are now employed, and this force will soon be enlarged. Timbers are being framed and material put in condition for handling, twenty to thirty cars a day arriving, consisting of cement, timbers, stone, etc. There seem to be conflicting notions as to what the bridge will be when completed. Many suppose that it is to be an entirely separate and distinct structure from the old bridge, but while there is in one sense to be an entirely new construction, yet practically it will amount to a reconstruction of the old bridge, so that when completed there will be in the center, for railway use, a double track instead of a single one, as now, and on each side of this will be a street car and wagon track with a foot walk outside of that. The work of building the caisson has already commenced, and in laying the piers air will be pumped down to the men and they will be furnished with electric lights. Those who want to get an idea of the extent and the proportions of the work should take a look at the great timbers and the mammoth preparations being made. The scheme is really a gigantic one, but the work will be kept up right along during the winter, with the expectation of having it completed by another winter.

Another Chief Hacked.

On Saturday Chief Elcher of the fire department proposed to restore Charlie Nicholson to the old place of driver of No. 1, and found to his surprise that the present occupant of that place, Charlie Hill, declined to get off the seat or give up the reins. The change was therefore postponed until the meeting of the council. It seems that Elcher made a little mistake. He forgot that it is the fashion now for all the mayor's pets to hang onto office until every formality is complied with and they are kicked out. Instead of notifying Hill by a written order of discharge, over the seal of the city, and tied with a red tape, he informally appointed Nicholson, leaving the more formal approval of the change for the action of the city council. Hill proposed to have all the gentlemen observed, and as he has a hair the best of it on a technicality for twenty-four hours he purposes to hang to it. It is said that one might as well be out of fashion, and just now the fashion is for office holders down to the most humble, hanging on with a firm grip.

Disbursing the Boodle.

The report that the brewers had raised a big amount of boodle to use in defeating the republican candidates for the legislature, or at least so many of them as were anywhere threatened with prohibition or very high license notions, is quite generally credited as true. It has been stated that \$500 of this amount has been appropriated to use in this county, and that on Saturday a number of the prominent democrats served as a disbursing committee, and visited Avoca, Minden, Neola, Walnut and other places and divided up the boodle so as to accomplish the most possible for the money. The republicans claim to be in possession of the facts, and they are making the most possible out of the statements.
